A screenshot of a form field labeled "HS CODE" with a small circular icon to its left. The field is empty and has a light gray border.

The **HS CODE** is important in international trades, because you can know the documental requisites and procedures. Clicking on “i” you can access to an HS CODE searcher.

A screenshot of a form field labeled "INCOTERM". The dropdown menu is open, showing "EXW" selected in a green box. Below it, "EXW" and "FOB" are listed as options.

You have to select **EXW** or **FOB** price, because you don't know the address of the potential buyers. The Incoterm could be modified when the negotiation is started.

A screenshot of a form labeled "PACKAGING DETAILS". It contains a text area for "Describe the packaging details". Below it, there are fields for "TYPE OF PACKAGE" (set to "PK - PALLET"), "QUANTITY PACKAGE" (Number), "WEIGHT PACKAGE" (Number), and "UNIT WEIGHT" (KG). There are also fields for "LENGTH PACKAGE" (Length), "WIDTH" (Width), "HEIGHT" (Height), and "CM" (CM). A yellow button labeled "0 cbm" is at the bottom.

In this section you have to fill the packaging information about the product. This will permit to calculate the total shipment of future negotiations and the subsequent transport. Fill in Packaging Details relevant information as how many boxes per pallet, if pallets are stackable or not, fragile cargo, etc.
